Spreading Awareness about AD/HD, ASC and Learning Disabilities

About us

ADHD, ASC & LD Belgium is a non-profit parent and teacher support organization run entirely by volunteers. Our mission is to provide a network of support, evidence-based information and resources for the English, German and Spanish-speaking families in Belgium affected by **Attention-Deficit/Hyperactivity Disorder (AD/HD)**, Autistic Spectrum Conditions (ASC) and Learning Disabilities, such as Dyslexia, Dyspraxia, Dyscalculia, etc., as well as for their teachers and other professionals who work with them.

By doing this we hope that we can spread awareness about these conditions in the international and European schools in Belgium so that the children and adolescents who are struggling because of one or more of these conditions will have the opportunity to achieve to their full potential at school and live balanced and productive lives as adults.

We aim to reduce the stigma surrounding AD/HD that still exists today - because of misinformation, - which is something that has a significant effect on the number of children and adolescents who remain undiagnosed and untreated.

What we do?

We organize regular support meetings for parents where families affected by AD/HD and related conditions can share their experiences and strategies and get advice from the professionals facilitating each meeting. This is especially important for families with a newly diagnosed child or adolescent or for newly arrived residents in Belgium who want to set up a support network.

Our organization offers courses on parenting children with AD/HD, ASC and related conditions, with a particular focus on behavioural management techniques. We invite nationally and internationally known experts to give workshops on important topics about AD/HD, Autistic Spectrum Conditions, Dyslexia and other Learning Disabilities (LD). We provide specialized coaching for children, adolescents, parents and teachers, which can either take place at school or at another location.

Our activities

Monthly Workshops

Specialised Courses (1-2days)

Parent Training (ADHD & ASC)

Workshops for Teens

Parent Support Meetings

Counselling and Coaching

Multilingual Conferences

ADHD Awareness Week activities

Library Books for Members

If you have concerns about your child or adolescent, you can contact us and we will be happy to meet with you in the office to evaluate what his or her special educational needs are and how to access them.
