## I warmly welcome you to Lern-Erlebnis-Institut!

Education is an active, creative and above all personal process. Every student is an individual with their own strengths, weaknesses, learning preferences and their own learning environment.

Accordingly, it is particularly important to me to further develop "learning in the school system" through individual and self-effective learning experiences into "learning for life".

Herzliche Grüße

Evelyn Heik - Gründerin und Leiterin des Lern-Erlebnis-Instituts

Lehrerin für Gymnasien (1. und 2. Staatsexamen) & Master of Education
